OF THE

AMERICAN SOCIETY OF CIVIL ENGINEERS

INDEX

VOLUME 128, PARTS I-V

1963

SUBJECT INDEX, PAGE 151

AUTHOR INDEX, PAGE 175

INTRODUCTION

These subject and author indexes cover all of the papers in Parts I through V of ASCE TRANSACTIONS, Vol. 128, 1963. Also included in the author index are citations to the abstracts of memoirs of deceased members; the authors of the memoirs are not indexed but their names appear in the individual memoir abstracts. In the author index, the abbreviation "Dsc" is used to indicate a discussion.

In this index, a notation such as

III:497:3516

indicates part III, page 497, Transactions Paper 3516. For a memoir abstract

V:144

indicates Part V, page 144.

SUBJECT INDEX

AERATION
"Mathematics of Complete-Mixing Activated Sludge," Ross E. McKinney (with discussion), III:497:3516.
"Turbulent Diffusion and the Reaeration Coefficient," Peter A. Krenkel and Gerald T. Orlob (with discussion), III:293:3491.

AERO-SPACE TRANSPORT
"Parking and Circulation of Vehicular Traffic at Airports," Israel Gilboa, IV:164:3425.
"Prestressed Concrete Pavement Practices," F. M. Mellinger, IV:149:3424.
"Reinforced Concrete Pavements for Airports," August W. Compton (with discussion), IV:27:3400.
"Runways and Taxiways for Supersonic Transports," Robert Horonjeff, IV:258:3478.

AGRICULTURE
"Agricultural Land Drainage and Stream Pollution," John M. Henderson, III:335:3495.
"Depth and Spacing of Tile Drain Systems," H. Y. Hammad (with discussion), III:535:3517.
"Tolerance of Plants to Salinity," Leon Bernstein (with discussion), III:561:3518.

AIRCRAFT
"Runways and Taxiways for Supersonic Transports," Robert Horonjeff, IV:258:3478.

AIRPORTS
"Parking and Circulation of Vehicular Traffic at Airports," Israel Gilboa, IV:164:3425.
"Prestressed Concrete Pavement Practices," F. M. Mellinger, IV:149:3424.
"Reinforced Concrete Pavements for Airports," August W. Compton (with discussion), IV:27:3400.
"Runways and Taxiways for Supersonic Transports," Robert Horonjeff, IV:258:3478.

ALGAE
"Dissolved Solids Removal from Waste Water by Algae," Albert F. Bush, John D. Isherwood and Shiva Rodgi, III:84:3418.
"Light Conversion Efficiency of Algae Grown in Sewage," William J. Oswald (with discussion), III:47:3395.

ALLOYS
"Economy of High Strength Steel Structural Members " Geerhard Haaijer (with discussion), II:820:3509.

ALUMINUM
"Experimental and Analytical Study of a Folded Plate," A. C. Scordelis, E. L. Croy and I. R. Stubbs (with discussion), II:342:3446.
"Physical Metallurgy and Mechanical Properties of Materials (Symposium)," Joseph F. Throop; Francis H. Ree, Taikyue Ree and Henry Eyring; B. L. Averbach (with discussion), I:1319:3488.
"Yielding at Varying Load Rates," A. M. DiGioia, Jr., and R. G. Crum, I:1119:3470.

AMERICAN SOCIETY OF CIVIL ENGINEERS (Addresses)
"An Impression of the Technical Division Activity in ASCE, Annual Address at the Conference, Milwaukee, Wisconsin, May 15, 1963," Edmund Friedman, V:101:3522.

AMERICAN SOCIETY OF CIVIL ENGINEERS (Memoirs of Members)
See name of member in Author Index.

ANALOGS
Analog Models for Flood Control Systems, I:993:3458.
"Arch Dam Analysis with an Electric Analog Computer," Richard H. MacNeal (with discussion), I:168:3403.
"Moment-Distribution Constants from Cardboard Analogs," Otakar Ondra (with discussion), II:37:3398.

ANALOGS *(Continued)*
"Seepage Through Layered Anisotropic Porous Media," David K. Todd and Jacob Bear (with discussion), I:256:3413.

AQUEDUCTS
"Aqueduct Capacity Under an Optimum Benefit Policy," Warren A. Hall (with discussion), III:162:3430.

ARCHES
"Analysis of Circular Arches on Elastic Abutments," K. V. Swaminathan (with discussion), II:369:3449.
"Deflection Theory of Arches," S. O. Asplund (with discussion), II:307:3439.

ATOMIC BLAST
"Titan ICBM Hardened Facilities," Marvin J. Kudroff (with discussion), II:516:3467.

ATOMIC ENERGY
"Atomic Power, A Failure in Engineering Responsibility," Adolph J. Ackerman (with discussion), V:17:3497.
"Concrete Reactor Shield," Harvey L. Meyer III:266:3472.
"Metal Work Design of High Intensity Radiation Cells," John M. Ruddy, II:568:3473.
"Nuclear Power for the Arctic," William F. Reilly and John T. Rhett, Jr., II:213:3412.

AUTOMOBILES
"Auto Trips to the Central Business District," John A. Dearinger, IV:278:3482.
"Correlation of Future Vehicle and Highway Design," Kenneth A. Stonex, IV:302:3483.
"New Concepts for Urban Freeway Interchanges," Donald W. Loutzenheiser (with discussion), IV:332:3492.
"Traffic Behavior and Freeway Ramp Design," Charles Pinnell and Charles J. Keese (with discussion), IV:1:3396.

BEAMS
"Economy of High Strength Steel Structural Members," Geerhard Haaijer (with discussion), II:820:3509.
"Effect of Local Loss of Support on Foundation Design," F. E. Richart, Jr. and P. Zia (with discussion), I:1149:3476.
"Grid Analysis by the Reaction Distribution Method," Irving Fader (with discussion), II:255:3428.
"Limit Design of Crossed Steel Beams," Aron Zaslavsky (with discussion), II:431:3456.
"Minimum-Weight Design of Beams for Deflection," Ralph L. Barnett, I:221:3411.
"Tests on a 120-ft-Span Prestressed Concrete Beam," G. D. Base and R. E. Rowe (with discussion), II:125:3404.
"Variational Considerations for Elastic Beams and Shells," Eric Reissner (with discussion), I:897:3450.
"Vibrations of Linearly Tapered Cantilever Beams," G. W. Housner and W. O. Keightley (with discussion), I:1020:3461.

BREAKWATERS
"Diffraction of Waves by Semi-Infinite Breakwater," R. L. Wiegel (with discussion), I:1181:3477.
"Mechanical Bypassing of Littoral Drift at Inlets," George M. Watts, IV:178:3455
"Stable Concrete Blocks on Rubble-Mound Breakwaters," S. Nagai, IV:227:3474.

BRIDGES (General)
"Surveys for the Lake Pontchartrain Bridge," James M. Tuttle (with discussion), IV:42:3409.

BRIDGES, CONCRETE
"Recent Advances in the Design and Behavior of Concrete Bridges," Hubert Rüsch, II:881:3519.

BRIDGES, SUSPENSION
"Corrected Deflection Theory of Suspension Bridges," John Szidarovsky (with discussion), II:1:3397.
"Secondary Stresses in Parallel Wire Suspension Cables," Thomas Alan Wyatt (with discussion), II:97:3402.
"Short Flexible Suspension Bridges for Heavy Trucks," Sven Olof Asplund (with discussion), II:927:3521.

BRIDGES, TRUSS
"Column Research Council Symposium on Metal Compression Members: Effect of Floor Systems on Pony Truss Bridges," Robert M. Barnoff and William G. Mooney, II:629:3487.

BUCKLING
"Buckling Behavior Above the Tangent Modulus Load," Bruce G. Johnston (with discussion), I:819:3445.
"Column Research Council Symposium on Metal Compression Members: Effect of Floor Systems on Pony Truss Bridges," Robert M. Barnoff and William G. Mooney, II:629:3487.
"Critical Buckling Loads for Tapered Columns," James M. Gere and Winfred O. Carter (with discussion), II:736:3490.
"Elasto-Plastic Analysis by Numerical Procedures," Annabel L. Tong (with discussion), I:198:3408.
"Welded Plate Girders (Symposium)," Konrad Basler and Bruno Thürlimann; Konrad Basler (with discussion); Konrad Basler, II:653:3489.

BULKHEADS
"Field Study of a Cellular Bulkhead," Ardis White, James A. Cheney and C. Martin Duke (with discussion), I:463:3426.

CABLES
"Corrected Deflection Theory of Suspension Bridges," John Szidarovsky (with discussion), II:1:3397.
"Secondary Stresses in Parallel Wire Suspension Cables," Thomas Alan Wyatt (with discussion), II:97:3402.
"Simplified Sag-Tension Equations for Power Lines," Francis J. Hubert, III:214:3464.

CANALS (General)
"Compacted Loessial-Soil Canal Linings," Chester W. Jones and C. A. Lowitz, III:349:3499.
"Effect of Velocity on Seepage and its Measurement," Herman Bouwer, L. E. Myers and R. C. Rice, III:279:3475.
"Manifold Stilling Basin," Gene R. Fiala and Maurice L. Albertson (with discussion), I:428:3421.
"Stability of Alluvial Channels," Francis M. Henderson (with discussion), I:657:3440.

CEMENT
"Symposium on Grouting: Grouting of Granular Materials," John C. King and Edward G. W. Bush (with discussion), I:1279:3486.

CHANNELS
"Analog Models for Flood Control Systems," I:993:3458.
"Critical Flow in Terms of Hydraulic Equivalents," Francis S. Y. Lee (with discussion), III:470:3515.
"Forms of Bed Roughness in Alluvial Channels," D. B. Simons and E. V. Richardson (with discussion), I:284:3414.
"Roughness Spacing in Rigid Open Channels," William W. Sayre and Maurice L. Albertson (with discussion), I:343:3417.
"Seepage Through Layered Anisotropic Porous Media," David K. Todd and Jacob Bear (with discussion), I:256:3413.
"Stability of Alluvial Channels," Francis M. Henderson (with discussion), I:657:3440.
"Terminal Shape of a Shallow Liquid Front," E. Roy Tinney and D. L. Bassett (with discussion), I:609:3433.

CHANNELS *(Continued)*
"Total Sediment Transport in the Lower Colorado River," John R. Sheppard (with discussion), I:721: 3441.
"Turbulent Diffusion and the Reaeration Coefficient," Peter A. Krenkel and Gerald T. Orlob (with discussion), III:293:3491.
"Unification of Parshall Flume Data," Sydney Davis (with discussion), III:399:3511.
"Uniform Flow in a Shallow, Triangular Open Channel," Richard J. Wasley (with discussion), I:633:3437.
"Uniform Water Conveyance Channels in Alluvial Material," Daryl B. Simons and Maurice L. Albertson (with discussion), I:65:3399.

CITY PLANNING
"Auto Trips to the Central Business District," John A. Dearinger, IV:278: 3482.

CLAY
"Cohesion After Non-Hydrostatic Consolidation," John H. Schmertmann and John R. Hall, Jr. (with discussion), I:949:3452.
"Pore Pressures in a Foundation Clay," T. William Lambe (with discussion), I:865:3448.
"Prediction of Swelling Potential for Compacted Clays," H. Bolton Seed, Richard J. Woodward, Jr., and Raymond Lundgren (with discussion), I:1443:3501.
"Symposium on Grouting: Grouting of Granular Materials," John C. King and Edward G. W. Bush (with discussion), I:1279:3486.

COEFFICIENTS
"Drag Forces in Velocity Gradient Flow," Frank D. Masch and Walter L. Moore (with discussion), I:48:3394.

COLUMNS
"Analysis of Multi-Span, Gable Frames," John R. Harris (with discussion), II:755:3494.
"Buckling Behavior Above the Tangent Modulus Load," Bruce G. Johnston (with discussion), I:819:3445.
"Critical Buckling Loads for Tapered Columns," James M. Gere and Winfred O. Carter (with discussion), II:736:3490.
"Strength of Round Columns," Yuzuru Fujita and George C. Driscoll, Jr., II:466:3460.

COMPUTERS
"Arch Dam Analysis with an Electric Analog Computer," Richard H. MacNeal (with discussion), I:168:3403.
"Critical Buckling Loads for Tapered Columns," James M. Gere and Winfred O. Carter (with discussion), II:736:3490.
"Deep Water Wave Generation by Moving Wind Systems," Basil W. Wilson (with discussion), IV:104: 3416.
"Variational Methods in Fluid Dynamics," J. W. Delleur and A. A. Sooky (with discussion), I:794:3444.
"Water-Hammer Analysis Including Fluid Friction," Victor L. Streeter and Chintu Lai (with discussion), I:1491:3502.

COMPUTING
"Deflection Theory of Arches," S. O. Asplund (with discussion), II:307:3439.
"Hydro System Power Analysis by Digital Computer," David J. Lewis and Loren A. Shoemaker, I:1074:3466.
"Vibrations of Linearly Tapered Cantilever Beams," G. W. Housner and W. O. Keightley (with discussion), I:1020:3461.
"Viscoelastic Plate on a Viscoelastic Foundation," Karl S. Pister, I:937: 3451.

CONCRETE (General)
"Concrete Reactor Shield," Harvey L. Meyer, III:266:3472.
"Design Features of Glen Canyon Dam," Ernest R. Schultz, III:236:3471.
"Metal Work Design of High Intensity Radiation Cells," John M. Ruddy, II:568:3473.

"Recent Advances in the Design and Behavior of Concrete Bridges," Hubert Rüsch, II:881:3519.
"Restraint of Structures Attached to Mass Concrete," Keith Jones (with discussion), II:412:3454.
"Stable Concrete Blocks on Rubble-Mound Breakwaters," S. Nagai, IV:227:3474.
"Survey of European Concrete Crossties," Walter E. Kunze (with discussion), II:483:3462.

CONCRETE, PRESTRESSED
"Freezing and Thawing Effects on Prestressed Concrete," M. J. Gutzwiller and F. E. Musleh (with discussion), II:152:3405.
"Prestressed Concrete Pavement Practices," F. M. Mellinger, IV:149:3424.
"Recent Advances in the Design and Behavior of Concrete Bridges, Hubert Rüsch, II:881:3519.
"Strength of Prestressed Concrete Pavements," Yutaka Osawa, II:607:3485.
"Tests on a 120-ft-Span Prestressed Concrete Beam," G. D. Base and R. E. Rowe (with discussion), II:125:3404.

CONCRETE, REINFORCED
"Reinforced Concrete Pavements for Airports," August W. Compton (with discussion), IV:27:3400.

CONDUITS
"Hood Inlet for Closed Conduit Spillways," Fred W. Blaisdell (with discussion), I:1:3393.

CONSOLIDATION
"Cohesion After Non-Hydrostatic Consolidation," John H. Schmertmann and John R. Hall, Jr. (with discussion), I:949:3452.

CONSTRUCTION
"Concrete Reactor Shield," Harvey L. Meyer, III:266:3472.
"Design Features of Glen Canyon Dam," Ernest R. Schultz, III:236:3471.
"Nuclear Power for the Arctic," William F. Reilly and John T. Rhett, Jr., II:213:3412.
"Short Flexible Suspension Bridges for Heavy Trucks," Sven Olof Asplund (with discussion), II:927:3521.
"Survey of European Concrete Crossties," Walter E. Kunze (with discussion), II:483:3462.
"Surveys for the Lake Pontchartrain Bridge," James M. Tuttle (with discussion), IV:42:3409.
"Titan ICBM Hardened Facilities," Marvin J. Kudroff (with discussion), II:516:3467.

COSTS
"Aqueduct Capacity Under an Optimum Benefit Policy," Warren A. Hall (with discussion), III:162:3430.
"Outlook for Economic Use of Fresh Water from the Sea," Samuel B. Morris, III:130:3422.
"Survey of European Concrete Crossties," Walter E. Kunze (with discussion), II:483:3462.

CURVES
"Correlation of Future Vehicle and Highway Design," Kenneth A. Stonex, IV:302:3483.
"New Concepts for Urban Freeway Interchanges," Donald W. Loutzenheiser (with discussion), IV:332:3492.

DAMS (General)
"Analysis of Structures by System Theory," N. C. Lind (with discussion), II:786:3508.
"Dead-Load Stress in Model Dams by Method of Integration," Jerome M. Raphael (with discussion), II:234:3427.
"Total Sediment Transport in the Lower Colorado River," John R. Sheppard (with discussion), I:721:3441.

DAMS, ARCH
"Analysis of Circular Arches on Elastic Abutments," K. V. Swaminathan (with discussion), II:369:3449.
"Arch Dam Analysis with an Electric Analog Computer," Richard H. MacNeal (with discussion), I:168:3403.

DAMS, CONCRETE
"Design Features of Glen Canyon Dam," Ernest R. Schultz, III:236:3471.
"Influence of Geological Conditions on Uplift, W. Harold Stuart (with discussion), I:765:3443.
"Restraint of Structures Attached to Mass Concrete," Keith Jones (with discussion), II:412:3454.

DEFLECTION
"Bar-Chain Method for Analyzing Truss Deformation," S. L. Lee and P. C. Patel (with discussion), II:74:3401.
"Corrected Deflection Theory of Suspension Bridges," John Szidarovsky (with discussion), II:1:3397.
"Deflection Theory of Arches," S. S. O. Asplund (with discussion), II:307:3439.
"Folded Plate Analysis by Minimum Energy Principle," M. N. Fialkow, II:534:3468.
"Folded Plate Structures of Light Gage Steel," Arthur H. Nilson (with discussion), II:848:3514.
"Minimum-Weight Design of Beams for Deflection," Ralph L. Barnett, I:221:3411.
"Principle of Virtual Work in Structural Analysis," Frank L. DiMaggio (with discussion), II:183:3407.
"Strength of Prestressed Concrete Pavements," Yutaka Osawa, II:607:3485.

DOCKS
"Berthing and Mooring Forces," Glen B. Woodruff (with discussion), IV:376:3504.

DRAINAGE
"Agricultural Land Drainage and Stream Pollution," John M. Henderson, III:335:3495.
"Aqueduct Capacity Under an Optimum Benefit Policy," Warren A. Hall (with discussion), III:162:3430.
"Compacted Loessial-Soil Canal Linings," Chester W. Jones and C. A. Lowitz, III:349:3499.
"Critical Flow in Terms of Hydraulic Equivalents," Francis S. Y. Lee (with discussion), III:470:3515.
"Depth and Spacing of Tile Drain Systems," H. Y. Hammad (with discussion), III:535:3517.
"Drainage Wells in Leaky Water-Table Aquifers," Mahdi S. Hantush, I:1005:3459.
"Effect of Velocity on Seepage and its Measurement," Herman Bouwer, L. E. Myers and R. C. Rice, III:279:3475.
"Evaporation at High Elevations in California," Leonard L. Longacre and Harry F. Blaney (with discussion), III:444:3513.
"Factors Affecting the Safe Yield of Ground-Water Basins," John F. Mann, Jr. (with discussion), III:180:3434.
"Field Measurement of Hydraulic Conductivity," William W. Donnan and V. S. Aronovici, III:103:3419.
"Mechanics of Evapo-Transpiration," David W. Hendricks and Vaughn E. Hansen (with discussion), III:422:3512.
"Outlook for Economic Use of Fresh Water from the Sea," Samuel B. Morris, III:130:3422.
"Tolerance of Plants to Salinity," Leon Bernstein (with discussion), III:561:3518.
"Unification of Parshall Flume Data," Sydney Davis (with discussion), III:399:3511.
"Unsteady Flow of Ground Water into Drain Tile," R. H. Brooks (with discussion), III:117:3420.
"Water Table Fluctuations Induced by Irrigation," Marinus Maasland, III:142:3223.

EARTH PRESSURE
"Field Study of a Cellular Bulkhead," Ardis White, James A. Cheney and C. Martin Duke (with discussion), I:463:3426.

ECONOMICS
"Factors Affecting the Safe Yield of Ground-Water Basins," John F. Mann, Jr. (with discussion), III:180:3434.

"Outlook for Economic Use of Fresh Water from the Sea," Samuel B. Morris, III:130:3422.

EDUCATION
"Research and Civil Engineering Education," Nathan M. Newmark, V:1:3435.

ELASTICITY
"Analysis of Circular Arches on Elastic Abutments," K. V. Swaminathan (with discussion), II:369:3449.
"Arch Dam Analysis with an Electric Analog Computer," Richard H. MacNeal (with discussion), I:168:3403.
"Elasto-Plastic Analysis by Numerical Procedures," Annabel L. Tong (with discussion), I:198:3408.
"Experimental and Analytical Study of a Folded Plate," A. C. Scordelis, E. L. Croy and I. R. Stubbs (with discussion), II:342:3446.

ENERGY
"Energy Relationships in Plastic Steel Structures," B. Rawlings, II,578:3480.
"Folded Plate Analysis by Minimum Energy Principle," M. N. Fialkow, II:534:3468.
"Free Vibrations of Fluid-Filled Cylindrical Shells," Melvin L. Baron and Richard Skalak, I:1092:3469.
"Marine Oil Terminal for Rio de Janeiro, Brazil," H. W. Reeves (with discussion), IV:56:3410.

ENGINEERING MECHANICS
"Arch Dam Analysis with an Electric Analog Computer," Richard H. MacNeal (with discussion), I:168:3403.
"Buckling Behavior Above the Tangent Modulus Load," Bruce G. Johnston (with discussion), I:819:3445.
"Consistent Approximations in Shell Theory," Placido Cicala, I:1203:3479.
"Elasto-Plastic Analysis by Numerical Procedures, Annabel L. Tong (with discussion), I:198:3408.
"Flow Graphs in Structural Analysis," Kurt H. Gerstle (with discussion), II:169:3406.
"Free Vibrations of Fluid-Filled Cylindrical Shells," Melvin L. Baron and Richard Skalak, I:1092:3469.
"Mechanics of Pipe Flow Following Column Separation," Wen-Hsiung Li, I:1233:3481.
"Method of Internal Constraints and its Application," Enrico Volterra, I:509:3429.
"Minimum-Weight Design of Beams for Deflection," Ralph L. Barnett, I:221:3411.
"Mixing of a Turbulent Wall-Jet into a Free-Stream," S. Eskinazi and V. Kruka, I:1055:3463.
"Physical Metallurgy and Mechanical Properties of Materials (Symposium)," Joseph F. Throop; Francis H. Ree, Taikyue Ree, and Henry Eyring; B. L. Averbach (with discussion), I:1319:3488.
"Principle of Virtual Work in Structural Analysis," Frank L. DiMaggio (with discussion), II:183:3407.
"Stability in a Continuously Stratified Fluid," Philip G. Drazin and Louis N. Howard, I:849:3447.
"Steady Creep of a Nonhomogeneous Plate," J. L. Sackman, I:1255:3484.
"Stresses at a Re-Entrant Corner of a Plate," Mario G. Salvadori, II:284:3436.
"Turbulent Diffusion and Anemometer Measurements," Lionel V. Baldwin and William R. Mickelsen (with discussion), I:1595:3507.
"Variational Considerations for Elastic Beams and Shells," Eric Reissner (with discussion), I:897:3450.
"Variational Methods in Fluid Dynamics," J. W. Delleur and A. A. Sooky (with discussion), I:794:3444.
"Vibrations of Linearly Tapered Cantilever Beams," G. W. Housner and W. O. Keightley (with discussion), I:1020:3461.
"Viscoelastic Plate on a Viscoelastic Foundation," Karl S. Pister, I:937:3451.
"Yielding at Varying Load Rates," A. M. DiGioia, Jr. and R. G. Crum, I:1119:3470.

ENGINEERS AND ENGINEERING
"An Impression of the Technical Division Activity in ASCE, Annual Address at the Conference, Milwaukee, Wisconsin, May 15, 1963," Edmund Friedman, V:101:3522.
"Research and the Professional Society," Arthur T. Ippen (with discussion), V:92:3506.

EROSION
"Mechanical Bypassing of Littoral Drift at Inlets," George M. Watts, IV:178:3455.
"Sediment in Small Reservoirs Due to Urbanization," Harold P. Guy and George E. Ferguson, I:982:3457.

ESTUARIES
"Diffusion in a Sectionally Homogeneous Estuary," Richard Kent (with discussion), III:1:3392.

FAILURES
"Theory and Test Results on the Fatigue of Metals," F. Stuessi (with discussion), II:896:3520.

FILTRATION
"Trickling Filtration Design and Performance," W. Wesley Eckenfelder, Jr. (with discussion), III:371:3510.

FLOOD CONTROL
"Hydraulics of Gravity Wells in Sloping Sands," Mahdi S. Hantush (with discussion), I:1423:3500.

FLOODS (General)
"Analog Models for Flood Control Systems, I:993:3458.

FLOORS
"Column Research Council Symposium on Metal Compression Members: Effect of Floor Systems on Pony Truss Bridges," Robert M. Barnoff and William G. Mooney, II:629:3487.
"Limit Design of Crossed Steel Beams," Aron Zaslavsky (with discussion), II:431:3456.
"Stresses at a Re-Entrant Corner of a Plate," Mario G. Salvadori, II:284:3436.
"Vibration Analysis for Structural Floor Systems," Lawrence R. Burkhardt (with discussion), II:290:3438.

FLUMES
"Rougness Spacing in Rigid Open Channels," William W. Sayre and Maurice L. Albertson (with discussion), I:343:3417.
"Terminal Shape of a Shallow Liquid Front," E. Roy Tinney and D. L. Bassett (with discussion), I:609:3433.
"Unification of Parshall Flume Data," Sydney Davis (with discussion), III:399:3511.

FOUNDATIONS
"Analysis of Circular Arches on Elastic Abutments," K. V. Swaminathan (with discussion), II:369:3449.
"Design Features of Glen Canyon Dam," Ernest R. Schultz, III:236:3471.
"Effect of Local Loss of Support on Foundation Design," F. E. Richart, Jr., and P. Zia (with discussion), I:1149:3476.
"Field Study of a Cellular Bulkhead," Ardis White, James A. Cheney, and C. Martin Duke (with discussion), I:463:3426.
"Inelastic Wave Propagation in Soil Columns," Werner Heierli, I:1392:3498.
"Metal Work Design of High Intensity Radiation Cells," John M. Ruddy, II:568:3473.
"Pile Heave and Redriving," Earle J. Klohn (with discussion), I:557:3432.
"Pore Pressures in a Foundation Clay," T. William Lambe (with discussion), I:865:3448.
"Prediction of Swelling Potential for Compacted Clays," H. Bolton Seed, Richard J. Woodward, Jr. and Raymond Lundgren (with discussion), I:1443:3501.
"Shear Strength of Sands During Rapid Loadings," Robert V. Whitman and Kent A. Healy (with discussion), I:1553:3503.
"Symposium on Grouting: Grouting of Granular Materials," John C. King

and Edward G. W. Bush (with discussion), I:1279:3486.
"Viscoelastic Plate on a Viscoelastic Foundation," Karl S. Pister, I:937:3451.

FRAMES
"Analysis of Multi-Span, Gable Frames," John R. Harris (with discussion), II:755:3494.

FRICTION
"Cohesion After Non-Hydrostatic Consolidation," John H. Schmertmann and John R. Hall, Jr. (with discussion), I:949:3452.
"Control of Alluvial Rivers by Steel Jetties," E. J. Carlson and R. A. Dodge, Jr., IV:347:3496.
"Correlation of Future Vehicle and Highway Design," Kenneth A. Stone, IV:302:3483.
'Shear Strength of Sands During Rapid Loadings," Robert V. Whitman and Kent A. Healy (with discussion), I:1553:3503.
"Water-Hammer Analysis Including Fluid Friction," Victor L. Streeter and Chintu Lai (with discussion), I:1491:3502.

FRICTION COEFFICIENTS
"Mixing of a Turbulent Wall-Jet into a Free-Stream," S. Eskinazi and V. Kruka, I:1055:3463.

GARAGES
"Parking and Circulation of Vehicular Traffic at Airports," Israel Gilboa, IV:164:3425.

GEOLOGY
"Design Features of Glen Canyon Dam," Ernest R. Schultz, III:236:3471.
"Influence of Geological Conditions on Uplift," W. Harold Stuart (with discussion), I:765:3443.

GIRDERS
"Welded Plate Girders (Symposium), Konrad Basler and Bruno Thürlimann; Konrad Basler (with discussion), Konrad Basler, II:653:3489.

GROUND WATER
"Factors Affecting the Safe Yield of Ground-Water Basins," John F. Mann, Jr. (with discussion), III:180:3434.
"Hydraulics of Gravity Wells in Sloping Sands," Mahdi S. Hantush (with discussion), I:1423:3500.
"Theoretical and Practical Aspects of Well Recharge," Paul Baumann (with discussion), I:739:3442.
"Unsteady Flow of Ground Water into Drain Tile," R. H. Brooks (with discussion), III:117:3420.
"Water Table Fluctuations Induced by Irrigation," Marinus Maasland, III:142:3223.

HARBORS (General)
"Berthing and Mooring Forces," Glen B. Woodruff (with discussion), IV:376:3504.
"Control of Alluvial Rivers by Steel Jetties," E. J. Carlson and R. A. Dodge, Jr., IV:347:3496.
"Deep Water Wave Generation by Moving Wind Systems," Basil W. Wilson (with discussion), IV:104:3416.
"Freeboard Allowances for Waves in Inland Reservoirs," Thorndike Saville, Jr., Elmo W. McClendon and Albert L. Cochran, IV:195:3465.
"Marine Oil Terminal for Rio de Janeiro, Brazil," H. W. Reeves (with discussion), IV:56:3410.
"Mechanical Bypassing of Littoral Drift at Inlets," George M. Watts, IV:178:3455.
"Stable Concrete Blocks on Rubble-Mound Breakwaters," S. Nagai, IV:227:3474.

HARBORS (Geographical)
"Hurricane Studies of New York Harbor," Samuel Gofseyeff and Frank L. Panuzio (with discussion), IV:394:3505.
Brazil
"Marine Oil Terminal for Rio de Janeiro, Brazil," H. W. Reeves (with discussion), IV:56:3410.
Texas
"Deep Water Wave Generation by Moving Wind Systems," Basil W. Wilson (with discussion), IV:104:3416.

HIGHWAYS AND ROADS (General)
"Auto Trips to the Central Business District," John A. Dearinger, IV:278: 3482.
"Correlation of Future Vehicle and Highway Design," Kenneth A. Stonex, IV:302:3483.
"New Concepts for Urban Freeway Interchanges," Donald W. Loutzenheiser (with discussion), IV:332:3492.
"Traffic Behavior and Freeway Ramp Design," Charles Pinnell and Charles J. Keese (with discussion), IV:1:3396.

HURRICANES
"Deep Water Wave Generation by Moving Wind Systems," Basil W. Wilson (with discussion), IV:104:3416.
"Hurricane Studies of New York Harbor," Samuel Gofseyeff and Frank L. Panuzio (with discussion), IV:394: 3505.

HYDRAULICS
"Analog Models for Flood Control Systems," I:993:3458.
"Critical Flow in Terms of Hydraulic Equivalents," Francis S. Y. Lee (with discussion), III:470:3515.
"Diffraction of Waves by Semi-Infinite Breakwater," R. L. Wiegel (with discussion), I:1181:3477.
"Diffusion in a Sectionally Homogeneous Estuary," Richard Kent (with discussion), III:1:3392.
"Drag Forces in Velocity Gradient Flow," Frank D. Masch and Walter L. Moore (with discussion), I:48:3394.
"Drainage Wells in Leaky Water-Table Aquifers," Mahdi S. Hantush, I:1005:3459.
"Estimating Potential Evapotranspiration," W. Russell Hamon (with discussion), I:324:3415.
"Estimating the Probable Maximum Precipitation," David M. Hershfield (with discussion), I:534:3431.
"Field Measurement of Hydraulic Conductivity," William W. Donnan and V. S. Aronovici, III:103:3419.
"Forms of Bed Roughness in Alluvial Channels," D. B. Simons and E. V. Richardson (with discussion), I:284:3414.
"Hood Inlet for Closed Conduit Spillways," Fred W. Blaisdell (with discussion), I:1:3393.
"Hydro System Power Analysis by Digital Computer," David J. Lewis and Loren A. Shoemaker, I:1074:3466.
"Jet Discharge into a Fluid with a Density Gradient," William E. Hart (with discussion), I:1358:3493.
"Manifold Stilling Basin," Gene R. Fiala and Maurice L. Albertson (with discussion), I:428:3421.
"Mechanics of Pipe Flow Following Column Separation," Wen-Hsiung Li, I:1233:3481.
"Roughness Spacing in Rigid Open Channels," William W. Sayre and Maurice L. Albertson (with discussion), I:343:3417.
"Sediment in Small Reservoirs Due to Urbanization," Harold P. Guy and George E. Ferguson, I:982:3457.
"Seepage Through Layered Anisotropic Porous Media," David K. Todd and Jacob Bear (with discussion), I:256:3413.
"Stability of Alluvial Channels," Francis M. Henderson (with discussion), I:657:3440.
"Terminal Shape of a Shallow Liquid Front," E. Roy Tinney and D. L. Bassett (with discussion), I:609:3433.
"Theoretical and Practical Aspects of Well Recharge," Paul Baumann (with discussion), I:739:3442.
"Total Sediment Transport in the Lower Colorado River," John R. Sheppard (with discussion), I:721: 3441.
"Turbulent Diffusion and Anemometer Measurements," Lionel V. Baldwin and William R. Mickelsen (with discussion), I:1595:3507.
"Turbulent Diffusion and the Reaeration Coefficient," Peter A. Krenkel and Gerald T. Orlob (with discussion), III:293:3491.
"Uniform Flow in a Shallow, Triangular Open Channel," Richard J. Wasley (with discussion), I:633:3437.
"Uniform Water Conveyance Channels in Alluvial Material," Daryl B.

Simons and Maurice L. Albertson (with discussion), I:65:3399.
"Water-Hammer Analysis Including Fluid Friction," Victor L. Streeter and Chintu Lai (with discussion), I:1491:3502.

HYDRODYNAMICS
"Drag Forces in Velocity Gradient Flow," Frank D. Masch and Walter L. Moore (with discussion), I:48:3394.

SILT
"Uniform Water Conveyance Channels in Alluvial Material," Daryl B. Simons and Maurice L. Albertson (with discussion), I:65:3399.

SLABS
"Effect of Local Loss of Support on Foundation Design," F. E. Richart, Jr. and P. Zia (with discussion), I:1149:3476.

SOIL MECHANICS
"Cohesion After Non-Hydrostatic Consolidation," John R. Hall, Jr. (with discussion), I:949:3452.
"Compacted Loessial-Soil Canal Linings," Chester W. Jones and C. A. Lowitz, III:349:3499.
"Effect of Local Loss of Support on Foundation Design," F. E. Richart, Jr. and P. Zia (with discussion), I:1149:3476.
"Field Study of a Cellular Bulkhead," Ardis White, James A. Cheney and C. Martin Duke (with discussion), I:463:3426.
"Inelastic Wave Propagation in Soil Columns," Werner Heierli, I:1392:3498.
"Influence of Geological Conditions on Uplift," W. Harold Stuart (with discussion), I:765:3443.
"Pile Heave and Redriving," Earle J. Klohn (with discussion), I:577:3432.
"Pore Pressures in a Foundation Clay," T. William Lambe (with discussion), I:865:3448.
"Prediction of Swelling Potential for Compacted Clays," H. Bolton Seed, Richard J. Woodward, Jr., and Raymond Lundgren (with discussion), I:1443:3501.
"Shear Strength of Sands During Rapid Loadings," Robert V. Whitman and Kent A. Healy (with discussion), I:1553:3503.
"Symposium on Grouting: Grouting of Granular Materials," John C. King and Edward G. W. Bush (with discussion), I:1279:3486.
"Uniform Water Conveyance Channels in Alluvial Material," Daryl B. Simons and Maurice L. Albertson (with discussion), I:65:3399.

SPILLWAYS (General)
"Design Features of Glen Canyon Dam," Ernest R. Schultz, III:236:3471.
"Hood Inlet for Closed Conduit Spillways," Fred W. Blaisdell (with discussion), I:1:3393.

STANDARDS
"Strength of Round Columns," Yuzuru Fujita and George C. Driscoll, Jr., II:466:3460.

STEEL
"Concrete Reactor Shield," Harvey L. Meyer, III:266:3472.
"Economy of High Strength Steel Structural Members," Geerhard Haaijer (with discussion), II:820:3509.
"Energy Relationships in Plastic Steel Structures," B. Rawlings, II:578:3480.
"Field Study of a Cellular Bulkhead," Ardis White, James A. Cheney and C. Martin Duke (with discussion), I:463:3426.
"Folded Plate Structures of Light Gage Steel," Arthur H. Nilson (with discussion), II:848:3514.
"Limit Design of Crossed Steel Beams," Aron Zaslavsky (with discussion), II:431:3456.
"Physical Metallurgy and Mechanical Properties of Materials (Symposium)," Joseph F. Throop; Francis H. Ree, Taikyue Ree, and Henry Eyring; B. L. Averbach (with discussion), I:1319:3488.
"Pile Heave and Redriving," Earle J. Klohn (with discussion), I:557:3432.
"Recent Advances in the Design and Behavior of Concrete Bridges," Hubert Rüsch, II:881:3519.
"Tests on a 120-ft-Span Prestressed Concrete Beam," G. D. Base and R. W. Rowe (with discussion), II:125:3404.

STIFFNESS
"Moment-Distribution Constants from Cardboard Analogs," Otakar Ondra (with discussion), II:37:3398.
"Short Flexible Suspension Bridges for Heavy Trucks," Sven Olof Asplund (with discussion), II:927:3521.

STRAINS
"Buckling Behavior Above the Tangent Modulus Load," Bruce G. Johnston (with discussion), I:819:3445.

"Elasto-Plastic Analysis by Numerical Procedures," Annabel L. Tong (with discussion), I:198:3408.
"Folded Plate Analysis by Minimum Energy Principle," M. N. Fialkow, II:534:3468.
"Restraint of Structures Attached to Mass Concrete," Keith Jones (with discussion), II:412:3454.
"Shear Strength of Sands During Rapid Loadings," Robert V. Whitman and Kent A. Healy (with discussion), I:1553:3503.
"Welded Plate Girders (Symposium)," Konrad Basler and Bruno Thürlimann; Konrad Basler (with discussion); Konrad Basler, II:653:3489.

STREAMS
"Agricultural Land Drainage and Stream Pollution," John M. Henderson, III:335:3495.

STRENGTH OF MATERIALS
"Freezing and Thawing Effects on Prestressed Concrete," M. J. Gutzwiller and F. E. Musleh (with discussion), II:152:3405.
"Minimum-Weight Design of Beams for Deflection," Ralph L. Barnett, I:221:3411.
"Moment-Distribution Constants from Cardboard Analogs," Otakar Ondra (with discussion), II:37:3398.

STRESSES
"Buckling Behavior Above the Tangent Modulus Load," Bruce G. Johnston (with discussion), I:819:3445.
"Dead-Load Stress in Model Dams by Method of Integration," Jerome M. Raphael (with discussion), II:234:3427.
"Elasto-Plastic Analysis by Numerical Procedures," Annabel L. Tong (with discussion), I:198:3408.
"Folded Plate Analysis by Minimum Energy Principle," M. N. Fialkow, II:534:3468.
"Secondary Stresses in Parallel Wire Suspension Cables," Thomas Alan Wyatt (with discussion), II:97:3402.
"Steady Creep of a Nonhomogeneous Plate," J. L. Sackman, I:1255:3484.
"Strength of Prestressed Concrete Pavements," Yutaka Osawa, II:607:3485.
"Stresses at a Re-Entrant Corner of a Plate," Mario G. Salvadori, II:284:3436.
"Theory and Test Results on the Fatigue of Metals," F. Stuessi (with discussion), II:896:3520.
"Welded Plate Girders (Symposium)," Konrad Basler and Bruno Thürlimann; Konrad Basler (with discussion); Konrad Basler, II:653:3489.
"Yielding at Varying Load Rates," A. M. DiGioia, Jr., and R. G. Crum, I:1119:3470.

STRUCTURAL ENGINEERING
"Analysis of Circular Arches on Elastic Abutments," K. V. Swaminathan (with discussion), II:369:3449.
"Analysis of Multi-Span, Gable Frames," John R. Harris (with discussion), II:755:3494.
"Analysis of Structures by System Theory," N. C. Lind (with discussion), II:786:3508.
"Bar-Chain Method for Analyzing Truss Deformation," S. L. Lee and P. C. Patel (with discussion), II:74:3401.
"Buckling Behavior Above the Tangent Modulus Load," Bruce G. Johnston (with discussion), I:819:3445.
"Column Research Council Symposium on Metal Compression Members: Effect of Floor Systems on Pony Truss Bridges," Robert M. Barnoff and William G. Mooney, II:629:3487.
"Concrete Reactor Shield," Harvey L. Meyer, III:266:3472.
"Corrected Deflection Theory of Suspension Bridges," John Szidarovsky (with discussion), II:1:3397.
"Critical Buckling Loads for Tapered Columns," James M. Gere and Winfred O. Carter (with discussion), II:736:3490.
"Dead-Load Stress in Model Dams by Method of Integration," Jerome M. Raphael (with discussion), II:234:3427.

AUTHOR INDEX

{including Memoirs of deceased menbers}

ABRAHAM, G.
Dsc of "Jet Discharge into a Fluid with a Density Gradient, I:1388:3493.

ACKERMAN, ADOLPH J.
"Atomic Power, A Failure in Engineering Responsibility," V:17:3497.

ACKERS, PETER
Dsc of "Uniform Water Conveyance Channels in Alluvial Material," I:113:3399.

ALBERTSON, MAURICE L.
See Daryl B. Simons, I:65:3399.
See Gene R. Fiala, I:428:3421.
See William W. Sayre, I:343:3417.

AMBROSE, HARRY HARWOOD
Memoir of, V:113

AMES, W. F.
See V. C. Behn, III:384:3510.

ARENA, J. R.
Dsc of "Economy of High Strength Steel Structural Members," II:843:3509.

ARONOVICI, V. S.
See William W. Donnan, III:103:3419.

ASPLUND, S. O.
"Deflection Theory of Arches," II:307:3439.
"Short Flexible Suspension Bridges for Heavy Trucks," II:927:3521.
Dsc of "Corrected Deflection Theory of Suspension Bridges," II:32:3397.

AUGUSTI, GIULIANO
Dsc of "Principle of Virtual Work in Structural Analysis," II:209:3407.

AVERBACH, B. L.
"Physical Metallurgy and Mechanical Properties of Materials (Symposium): Brittle Fracture," I:1340:3488.

BADIR, MOUNIR
Dsc of "Grid Analysis by the Reaction Distribution Method," II:281:3428.

BAINES, W. D.
Dsc of "Drag Forces in Velocity Gradient Flow," I:58:3394.

BAKER, A. L. L.
Dsc of "Berthing and Mooring Forces," IV:390:3504.

BALDWIN, LIONEL V.
"Turbulent Diffusion and Anemometer Measurements," with William R. Mickelsen, I:1595:3507.

BALLOFFET, ARMANDO
Dsc of "Unification of Parshall Flume Data," III:414:3511.

BARNES, D. P.
Dsc of "Atomic Power, A Failure in Engineering Responsibility," V:55:3497.

BARNETT, RALPH L.
"Minimum-Weight Design of Beams for Deflection," I:221:3411.

BARNOFF, ROBERT M.
"Column Research Council Symposium on Metal Compression Members: Effect of Floor Systems on Pony Truss Bridges," with William G. Mooney, II:629:3487.

BARON, MELVIN L.
"Free Vibrations of Fluid-Filled Cylindrical Shells," with Richard Skalak, I:1092:3469.

BARTELS, R. C. F.
Dsc of "Water-Hammer Analysis Including Fluid Friction," I:1527:3502.

BASE, G. D.
"Tests on a 120-ft-Span Prestressed Concrete Beam," with R. E. Rowe, II:125:3404.

BASLER, KONRAD
"Welded Plate Girders (Symposium): Strength in Shear," II:683:3489.
"Welded Plate Girders (Symposium): Strength Under Combined Bending and Shear," II:720:3489.
"Welded Plate Girders (Symposium): Strength in Bending," with Bruno Thürlimann, II:655:3489.

BASSETT, D. L.
See E. Roy Tinney, I:609:3433.

BAUMANN, PAUL
"Theoretical and Practical Aspects of Well Recharge," I:739:3442.
Dsc of "Arch Dam Analysis with an Electric Analog Computer," I:193:3403.
Dsc of "Hydraulics of Gravity Wells in Sloping Sands," I:1438:3500.

BEAR, JACOB
See David K. Todd, I:256:3413.

BEASLEY, R. P.
See E. T. Smerdon, I:36:3393.

BEAUJOINT, NICHOLAS J.
Dsc of "Dead-Load Stress in Model Dams by Method of Integration," II:252:3427.

BEHN, V. C.
Disc, with W. F. Ames and K. Keshavan, of "Trickling Filtration Design and Performance," III:384:3510.

BENEDEK, P.
Dsc of "Mathematics of Complete-Mixing Activated Sludge," III:524:3516.

BERNSTEIN, LEON
"Tolerance of Plants to Salinity," III:561:3518.

BIERY, P. F.
Disc, with J. W. Delleur, of "Roughness Spacing in Rigid Open Channels," I:372:3417.

BIRD, JOHN M.
See Dana D. Leslie, I:781:3443.
